SHIFA NOORANI

Software Engineering Student | Aspiring Software Developer

Shifanoorani14@gmail.com | GitHub: github.com/ShifaNoorani | LinkedIn: linkedin.com/in/shifa-noorani-a7591639b/

PROFILE

BS Software Engineering student at the University of Sindh with hands-on experience building web and mobile projects using PHP, MySQL, JavaScript, Flutter, and Dart. Interested in software development, AI-assisted development, and product-focused technology.

EDUCATION

University of Sindh, Jamshoro — ***B.S. Software Engineering*** | *2024 – Present*
Faculty of Engineering & Technology
The Leadership School, Jamshoro — ***Intermediate (HSC)*** | *2023*
The Leadership School, Jamshoro — ***Matriculation (SSC)*** | *2021*

TECHNICAL SKILLS

Programming: Java, C++, Python, JavaScript, Dart
Web Development: HTML5, CSS3, PHP, jQuery, Bootstrap, Responsive Web Development, Form Validation
Database: MySQL, SQL, Database-Driven Applications
Mobile Development: Flutter, Dart, Android SDK Tools
Software Engineering: Object-Oriented Programming (OOP), SDLC, Requirements Gathering, Systems Design, Agile Fundamentals, Git & GitHub
AI & Emerging Technologies: Generative AI, Prompt Engineering, AI-Assisted Development, AI Productivity Tools, Responsible AI Practices

PROJECTS

University Website & Faculty Portal Management System - *PHP | MySQL | HTML | CSS | JavaScript | jQuery*

- Developed a database-driven university faculty portal with faculty, department, program, facility, teacher, and user management.
- Implemented authentication and role-based access for different types of users.
- Worked with PHP and MySQL to build dynamic web pages and manage application data.

Radiant Clock App - *Flutter | Dart | CustomPainter*

- Developed a mobile clock application displaying both analog and digital time and date.
- Created a custom analog clock interface using Flutter's CustomPainter.
- Designed the interface around a radiant pink-and-black visual theme.

Student Registration Form - *HTML | CSS | JavaScript*

- Created a responsive student registration form with client-side validation.
- Implemented interactive form fields and real-time input validation.

Web Timer - *HTML | CSS | JavaScript*

- Developed a browser-based stopwatch/timer application.
- Built interactive timing controls using JavaScript with a responsive interface.

DEVELOPMENT EXPERIENCE

University Software Development Experience — University of Sindh | *2026 – Present*

- Develop software projects as part of university coursework and self-guided learning.
- Apply object-oriented programming concepts using Java and C++.
- Build full-stack web applications using PHP, MySQL, HTML, CSS, JavaScript, and jQuery.
- Currently developing mobile application skills with Flutter and Dart.
- Practice software debugging, integration, database management, and deployment.
- Collaborate with university project teams to understand requirements and develop software solutions.

CERTIFICATIONS

Google AI Professional Certificate — Google
Issued June 2026 | Credential ID: C9KSR69C8VS0

Completed seven advanced courses covering AI-powered workflows, prompt engineering, AI-assisted coding, data analysis, content creation, and responsible AI practices.

Google AI Essentials Specialization — Google

Issued June 2026 | Credential ID: JHJ6YP83RP55

Completed five hands-on courses focused on responsible AI use, prompt engineering, productivity, and AI-powered workflows.

ADDITIONAL

Languages: English, Urdu, Sindhi

Interests: Artificial Intelligence, Product Management, UX, Software Development

Activities & Awards: Gold Medal — ICATs Arts Competition; Art Competitions
